

### REMARKS/ARGUMENTS

The above amendments encompass the discussion with the Examiner on June 13, 2008. The "elastic" part has been more clearly defined as being a "deformable elastomeric" part. The claims have further been amended to positively claim the deformation of the "elastomeric" part with applied pressure and the change of rotation axis.

The claims are believed to be in condition for allowance and such favorable action is respectfully requested.

THIS CORRESPONDENCE IS BEING  
SUBMITTED ELECTRONICALLY THROUGH  
THE PATENT AND TRADEMARK OFFICE EFS  
FILING SYSTEM ON JUNE 17, 2008.
